

Exercise Physiologist

About us:

We are a team of multidisciplinary clinicians working in a community-based rehab service covering most of Metro Sydney. Over the last 14 years, we have built a reputation as one of the most progressive neurological rehab services in Australia - winning the Allied Health Adult Practice Excellence Award at the 2019 Australian Allied Health Awards. Our brand new, state-of-the-art rehab centre is located in the Lower North Shore of Sydney. This role provides the opportunity to work in the clinic as well as the community.

Why join us?

- **Dynamic Opportunity** - Ideal environment to further develop your skills as an Exercise Physiologist through a challenging and interesting neuro and complex disability caseload
- **Excellent Team Culture** - We are a growing team that is family owned and operated and have kept our close-knit team culture
- **Skilled Management** - Our management and leadership teams all come from skilled, therapy backgrounds - they are very hands-on and always available on site
- **Professional Development Focused** - Outstanding CPD program and ongoing support including weekly training, team meetings and clinical supervision
- **Multidisciplinary Team** - Excellent holistic client care provided between professions, including Occupational Therapy, Physiotherapy, Exercise Physiology, Allied Health Assistants, Neuromuscular Orthotics and Speech Pathology.

About the opportunity:

Due to growth of our Exercise Physiology team, we have an exciting opportunity for a passionate **ESSA Accredited Exercise Physiologist** to join our team. **This is a full-time position** and is split between our purpose-built rehabilitation clinic in Artarmon and the community. However, **part-time and casual employment will be considered for the right candidate.**

There is flexibility regarding the geographical area covered for your community caseload.

The neurological caseload can be challenging and would suit someone looking to stretch themselves. We manage clients with stroke/ABI, MS, PD, MND, SCI and other progressive conditions both acute/early in diagnosis and chronic stages.

About you:

- Confident and motivated
- Compassionate and ambitious for patient success
- Open to feedback and willing to learn
- Excellent organisation skills

Qualifications and experience:

- Valid Australian working rights
- ESSA Approved Exercise Physiologist
- Professional indemnity insurance
- Valid Australian Drivers Licence and car owner
- 2 years clinical experience, *desired*
- Neuro rehab experience, *desired*
- NDIS experience, *desired*

How to apply:
