

Neurological Physiotherapist

About us:

We are a team of multidisciplinary clinicians working in an outpatient and community-based rehab service covering most of Metro Sydney. Over the last 14 years, we have built a reputation as one of the most progressive neurological rehab services in Australia - winning the Allied Health Adult Practice Excellence Award at the 2019 Australian Allied Health Awards. Our brand new, state-of-the-art rehab centre is located in the Lower North Shore of Sydney.

Why join us?

- **Dynamic Opportunity** - Ideal environment to further progress your career as a skilled neurological physiotherapist, with a challenging and interesting neuro caseload.
- **Excellent Team Culture** - We are a growing team that is family owned and operated and have kept our close-knit team culture.
- **Multidisciplinary Team** - Excellent holistic client care provided between professions, including Occupational Therapy, Physiotherapy, Exercise Physiology, Allied Health Assistants, Neuromuscular Orthotics and Speech Pathology.
- **Skilled Management** - Our management team all come from skilled therapy backgrounds - they are very hands-on and always available on site
- **Professional Development Focused** - Outstanding CPD program and ongoing support including weekly training, team meetings, clinical supervision and access to ARCAcademy.

About the opportunity:

We have two exciting opportunities for experienced and passionate **Neurological Physiotherapists** to join our team.

1. Full-time position, based in the clinic in Artarmon.
2. Full-time position, split between the clinic and the community (location can be flexible, with opportunity to be based working from home on community days).

Part-time and casual positions would also be considered for the right candidate.

The neurological and complex therapy caseload is challenging and would suit someone looking to stretch themselves. We are known to excel in the management of clients with stroke/ABI, MS, PD, MND, SCI, FND and other progressive conditions both acute/early in diagnosis and in the chronic stages.

About you:

- Confident & Motivated
- Open to feedback & willing to learn
- Excellent organisation skills
- Compassionate and ambitious for patient success
- Consolidated experience working with clients with neurological conditions, especially stroke, ABI and MS
- Strong clinical reasoning and handling skills within neuro rehab
- Willing to learn how to integrate technology and robotics into therapy

Qualifications and experience:

- Valid Australian working rights
- Current AHPRA registration
- Professional indemnity insurance
- Valid Australian Driver's License and car owner (for community role)
- 5 years physiotherapy experience, including at least 2 years neurological experience
- Experience working within the National Disability Insurance Scheme (NDIS), *desired*

How to apply:

We would love to hear from you – please send your resume and cover letter to Melissa Harrison via email melissaharrison@archealth.com.au.

For a confidential discussion about the position please call Melissa Harrison on 02 [9906 7777](tel:99067777).
